RE: Water Right Transfer Application– Jentzsch Kearn Farms.

Dear Allen,

Enclosed is a water right transfer application in the name of Rodney A. and/or Shirley S. Jentzsch which proposes to create a 634 acre permissible place of use in which, water rights 36-2635, 36-7216 and 36-11328 would be limited to the existing combined total irrigated acre limit of 572 acres. No changes to the existing water rights' points of diversion are proposed and thus an ESPA modeling analysis of the proposed water right transfer has not been included.

Also enclosed are pertinent ownership documents and Brockway Engineering Check # 9602 for \$450.00 U.S. dollars. Please copy our office on all correspondence regarding this water right transfer application. Thank you for your assistance on this matter and if you have any questions or comments, please don't hesitate to give me a call.

Regards,

Zach Latham, M.S., Hydrologist
