10. Remarks:

The same ditch that will serve this pond also serves the Greg Bloomfield pond under Permit 37-8915. We have agreed to share this ditch.

This water is delivered to Bellevue Farms Subdivision under existing irrigation rights - owner of pond on the Big Wood River is unknown.

The pond is located on Lot 2 of Lookout Circle Subdivision.

The groundwater source is claimed under 37-2557N, and supplements the surface rights as needed to irrigate the subdivision. It will provide water on an intermittent basis to this pond, mainly later in the season when surface rights are cut back by the watermaster. Water will sometimes be available for the pond when the full output of the well is not needed for irrigation. The irrigation well will not be used just to supply the pond. This well is owned by the Bellevue Farms Homeowners Association.

Our domestic well will keep the pond full when other sources are not available, but total use of that well will not exceed 13,000 gallons of water per day; therefore, this well is not covered by this application. Between the pond and outside irrigation from this well, no more than 1/2 acre of land will be served.
