**Attachments:** WATERMASTER RECOMMENDATION sunvalleyranch.doc

Jeff,

After talking to you on the phone a couple weeks ago, I have updated my comments on all of the Sun Valley Ranch/Spring Creek Ranch transfers. I have attached them to this email.

## **WATERMASTER RECOMMENDATION**

### **Water Rights:**

Sun Valley Ranch and Spring Creek Idaho Ranch Application for Transfers (75838, 75839, 75840, 75849, 75850, 75852, 75854, 75855 & 75856) and Permit No 37-22459

In May of 2010, I wrote with concerns about the request to waive measuring device requirements for these transfers and Permit. After further research of these actions, I would agree to waive measuring devices on all of the diversion, injection, rediversion points as listed on the Permit, but I would still reserve the right to require measuring devices as deemed necessary in the future. This is such a complicated Transfer, that I would like to see it completed and functioning before making decisions about where best to measure the system.

Kevin Lakey  
Watermaster, Water District 37 & 37 M
