RE: Assignment of Permit for Water Right No. 47-17524

Dear Interested Party:

The Department has received the "Assignment of Permit" form filed for the above referenced water right. The Department is no longer able to process your ownership change through an assignment of permit form for the following reasons.

During the time period between the letter I sent Orem Hyde dated August 31, 2010, and the licensed date of September 2, 2010, the department conducted a license examination of the property and the extent of use. This water right is no longer a permit, but instead has become an active water right license based on a field examination conducted.

Once a permit becomes a license, a Notice of Change in Water Right Ownership form is required to complete an ownership change. Therefore, I have to return the assignment of permit form you filed as it no longer applies. I am enclosing the form titled, "Notice of Change in Water Right Ownership", and instructions for your use.

Once the Department is in receipt of a completed ownership change form, the department will then be able to process the change in ownership for this water right. There is no need to submit a fee associated with the ownership change form, because the Department will reapply the fee you already paid under receipt ID C091684.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

If you have any questions, please feel free to contact me at 208-287-4945.

Sincerely,

Darla Block
