The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit No. 65-22945 Date Proof is Due: August 1, 2010Name(s) of Permit Holder: Sage SGI, LLCAddress: c/o Sima Muroff, PO Box 1110 City McCall State ID Zip 83638Telephone No. 208-634-6050 Email: \_\_\_\_\_

Describe what work has been completed toward the development of this water right: (This must be filled out! If no work has been completed, show "none".)

Two high-capacity production wells have been drilled and equipped with pumps to supply the project. Water service has been stubbed to 140 lots and the system is currently operating, providing year-round fire protection, irrigation and domestic water supply.

Costing \$400,000+

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The local housing market has not warranted development of additional residential building lots. Water service under this permit will be extended to the remaining 110 lots authorized under the permit when the inventory of existing lots has been further reduced.

Permit holder(s) request an extension to August 1, 2015.
