RE: Application for Transfer - LCSC Enterprises, LLC

Dear Angela:

Please find attached an application for transfer prepared on behalf of LCSC Enterprises to change the proposed well location authorized by recently approved transfer #76248 as we discussed recently on the phone.

Electro seismic survey by Idaho Water Locating has indicated that a better probability of adequate well production can be achieved in the NESE of Section 24 rather than the NENE of Section 25 as requested by transfer #76248. Total authorized diversion from the proposed new well will not exceed 5.00 cfs. For that reason, the transfer fee provided corresponds to a 5.00 cfs total transfer, or \$410.⁰⁰. The well proposed in the NENE of Section 25 will not be constructed.

Please expedite processing to the maximum extent possible, and if there is anything I can do to assist, don't hesitate to contact me.

Sincerely,

Jason C. Helms, P.E.
