Subject: Permits to Appropriate Water / New Owners

September 09, 2010

Dear Mr. Shideler,

On August 09, 2010, I emailed you a copy of the Lapse Notice and an Assignment of Permit form per your request. As I understand, you are no longer the owner of these properties. The permits to appropriate water are currently in your name, and are permit nos. 63-31134, 63-31135, and 63-31136. All three permits bear a priority date of January 12, 2001, and are for aesthetic storage (ponds) from groundwater.

Do you plan to assign these permits over to the new owners? Had any construction of the ponds taken place during the development period from July 23, 2009, and August 1, 2010? If so, the new owners can file proof of beneficial use on what has been developed if you first file an assignment form. However, time is running out. All three permits have lapsed, and proof of beneficial use or a request for extension of time must be received by this department within 60 days of the mailing of the lapse notice in order to reinstate the permits. The 60 day deadline is October 8, 2010.

Please feel free to contact me at (208)287-4945.

Sincerely,

Darla Block
