

Memorandum

Date: September 3, 2010

To: File 22-7114

From: Craig L. Saxton *CLS*

RE: Review Memo

Licensing Amendment:

Need a licensing amendment to recommend the POU as a PPU. Limit 1702 within a 2754.4 POU shared with 22-7069, 22-7103, and 22-7230

POD found in the NWSE of section 13 and it was permitted for the SESE of section 13. Need an amendment for this change as well.

Contact Info: Up to date

Source: License as Permitted

Diversion Rate: See September 1, 2010 diversion rate memo.

Purpose of Use: Same as permitted.

Period of Use: Use IDWR Standard

POU:

This right is diverted through the same POD and delivery system as 22-7069, 22-7103, and 22-7230 and can therefore be used on the entire 2754.4 acres irrigated with 22-7069, 22-7103, and 22-7230. Permitted for 1702 acres so the license will be limited to 1702 acres within the 2754.4 POU.
