PROOF DEFICIENCY LETTER

RE: Permit No. 63-31191

Dear Permit Holder:

On August 10, 2010, the Department received a Statement of Completion for proof of beneficial use ("proof"), and a Request for Extension of Time ("extension request") from you for the above referenced permit to appropriate water. The Department is also in receipt of a \$50.00 filing fee. However, the Department can only accept one of the two forms you have filed. I am returning both forms you filed because of incomplete or missing information.

If you have not completed the project and put the water to its full beneficial use, you may re-file your extension request. If this is the case, I recommend that you ask for 3 more years to develop which would take you to your initial 5 year development period allowed. The request form also requires that you state the reason why you have been unable to complete the remainder of the work. The Department is unable to process your request without this information.

If you have completed your project and the water has been put to use, you will want to re-file your proof form. However, the license examination fee paid at the time of filing the proof form does not cover the maximum diversion rate allowed under your permit. The license examination fee is based on the maximum rate of diversion that was developed, and is for the department to conduct a beneficial use field examination of the water system to verify its use. The permit was issued with a maximum diversion rate of 0.69 cfs, from ground water. Based on your maximum diversion rate of 0.69 cfs, the license examination fee is \$100.00. An additional \$50.00 would need to be submitted to cover the amount listed on your permit. You also listed the number of acres being irrigated as 6, if this is correct you would be limited to the 6 acres of irrigation as listed on you proof form. Question no. 6 of the proof form is incomplete. Please correct, and/or complete your proof form and submit the additional \$50.00

To provide you with information regarding the permitted water uses and rate of diversion enclosed is a copy of the permit for your reference. Please return either the completed extension request form, or the completed proof form along with the additional license examination fee back to me within **(15) days** from the date of this letter.

Please contact me at (208) 287-4945, if you have any questions.

Sincerely,
