BOISE, ID 83712

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 65-13986

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. Department staff will contact you to schedule the examination.

Well Construction Standards of the Department require an additional drilling permit fee in cases where an increased use of water is authorized from a well originally constructed as a domestic well. Department records indicate that an additional drilling permit fee in the amount of \$125.00 is due based on the non domestic water use developed under your water right permit. Please submit this fee to the Department along with a note of reference identifying the well tag number on your well.

Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office or from the department website at www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Western Regional Office of the department in Boise, Idaho (208) 334-2190.

Sincerely,

Darla Block
Technical Records Specialist
