PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 22-13912

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. During my review of your proof and water right permit, I found one condition of this permit that may not have been complied with.

Condition no. 4 of this permit which states:

"Prior to diversion of water under this right, the right holder shall provide a means acceptable to the department to measure the amount of water entering the pond(s) and the amount of water released from the pond(s)."

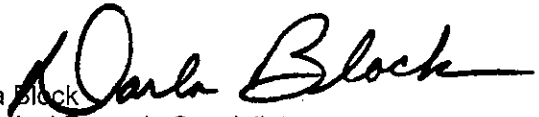

I recommend that this condition be complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. Therefore, you may wish to provide a means to measure the amount of water entering and exiting the pond(s), before the department conducts the field examination to avoid any problems in licensing your permit.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions regarding the permit conditions, please call me at (208)287-4945. If you have any questions concerning the field examination, please contact the Eastern Regional Office of the department in Idaho Falls at (208) 525-7161

Sincerely,

Darla Block
Technical Records Specialist
