RE: APPLICATION TO LEASE WATER TO THE WATER SUPPLY BANK  
WATER RIGHT NO(S) 22-7188, 22-7470.

Dear Applicant:

The Department of Water Resources acknowledges receipt of your lease application received on March 5, 2009 to lease water to the Water Supply Bank. However, since your application was not processed prior to the end of the proposed lease period, the Department is returning your application. The Department regrets any inconvenience caused by the delay in processing your application. Please submit a new application if you would like to lease water rights to the Water Supply Bank. To obtain the necessary application forms, please contact any Department office or visit the Department's web site at:

[http://www.idwr.idaho.gov/water/rights/water\\_rights\\_forms.htm](http://www.idwr.idaho.gov/water/rights/water_rights_forms.htm)

If you have any questions, please contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Christine Field".

A. DESCRIPTION OF WATER SOUGHT FOR RENTAL

Water Right Nos. 22-7188 and 22-7470

1. Source of water: Teton River  
which is tributary to: Snake River.
2. Maximum volume of water sought 263.2 (Water Right No. 22-7188) AF.
3. Maximum rate of diversion .72 cfs (22-7188) and .55 cfs (22-7470) cfs.

B. DESCRIPTION OF USE PROPOSED

1. Nature of use Diversion of Storage, Aesthetic Storage, Recreation Storage, Fire Protection Storage
2. Location of point of Point of diversion: SE ¼ of SE ¼ of Section 1  
6N Township 6N Range 44E, B.M. in Teton  
County.  
Additional points NENW, T6N., R44E., Sec. 15; SENW, T6N., R44E., Sec. 10;  
SENESEW, T6N., R40E (Madison County-Exchange well 22-7188).
3. Season of use: From 1/01 to 12/31.
4. Description of diverting works:  
FOR EXCHANGE WELL: Pump HP 20 Lift \_\_\_\_\_ Pump type  
Arora 8" well. For Teton River Water, GE 125 HP pumps. See water rights backfiles for 22-7188  
and 22-7470.
5. Place of use:
  - a. If water is for irrigation, describe the number of acres to be  
irrigated by 40-acre tract, section, township and range. No Irrigation.

12/99

b. If water is not for irrigation, describe the nature of the intended use and the place of use.

Initial filling of ponds to be used for recreation storage, aesthetic storage, fish and wildlife habitat improvement, and irrigation storage.

6. Describe any other water rights used for the same purposes as rental water sought under this application.

None of Teton Pipeline Association, Inc.'s water rights allow for recreational/aesthetic/fire protection purposes..

7. Who owns the property at the point of diversion?

West Rim, LLC (one of the stockholders of the applicant).

8. Who owns the property at the place of use?

West Rim, LLC (one of the stockholders of applicant).

9. Are you seeking a rental for more than one (1) year? No.

If so, how many years? \_\_\_\_\_

10. Remarks: This rental is for the initial filling of five (5) ponds in the River Rim Development which is required under the conditions of Permit No. 22-13714. Thus, the application is one-time only. In the coming years, rental applications will be submitted for the initial fill of additional ponds.

RE: Permit No. 22-13714

**Permit Approval Notice**

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

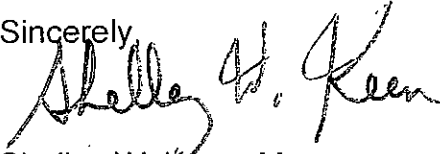

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in black ink that reads "Shelley W. Keen". The signature is written in a cursive style with a large, prominent initial 'S'.

Shelley W. Keen, Manager  
Water Right Permits Section

Department of Water Resources

# Permit to Appropriate Water

NO. 22-13714

## CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **August 01, 2013**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.
5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
6. The right holder shall install and maintain an impermeable liner in each pond to eliminate seepage losses.
7. This right and the rights listed below are limited to a total combined diversion rate of 66.80 cfs. Combined Right Nos.: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288, 22-7221 and 22-7504.
8. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall rent water from the Water Supply Bank or the Water District 1 Rental Pool for the initial filling of each pond. By March 1 of each year during the development of this project, the permit holder must notify the Eastern Region Office of the Department of Water Resources that water has been rented to fill the ponds anticipated to be constructed and filled that year. Water shall also be provided from either the Water Supply Bank or Water District 1 Rental Pool or from some other source authorized by the Department for any subsequent refilling of a pond that has been drained for maintenance or other purposes.
9. The ponds established by the storage of water under this right shall not exceed a total capacity of 1530 af or a total surface area of 130 acres. This right authorizes the continuous storage of 1530 af originally supplied from the Water Supply Bank and/or Water District 1 Rental Pool and the diversion and storage of 228.5 af annually to replace evaporation losses from the ponds.

State of Idaho  
Department of Water Resources

**Permit to Appropriate Water**

NO. 22-13714

10. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below. Moreover, the official record for the following water rights will be changed to show that diversion and use of water is not authorized because the rights and associated rights of Teton Pipeline Association, Inc., or portions thereof, are being dedicated to mitigation purposes.

Right No.	Use Changed to Mitigation	Mitigation Rate (cfs)	Mitigation Volume (AF)	Mitigation Acres
22-7188	Irrigation	1.25	455	130
22-7470	Irrigation	0.95		130

The total combined mitigation volume for 22-7188 and 22-7470 is 455 af and the total combined mitigation acres is 130 acres.

In addition, because they share the same POU, the following rights will also be reduced by 130 acres: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, and 22-13288.

The land that will no longer be irrigated by these rights is the place of use for this right.

If the specified mitigation rights, or portions thereof, are sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this permit approval shall be reduced by the same proportion as the reduction to the mitigation rights.

11. If the right holder cannot continue to implement this mitigation plan every year for any reason, or implement an alternative mitigation plan that has been reviewed and approved by the department, then the right holder shall cease diverting water under this right.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 5<sup>th</sup> day of August, 2008.

*Shelley W. Keen*  
for DAVID R. TUTHILL, JR., Director

1. DESCRIPTION OF WATER RIGHT:

Right evidenced by:

- a. Decree No. 22-7188 and 22-7470 Decreed to Teton Pipeline Association, Inc.  
(Name)  
in case of In Re SRBA Case No. 39576, in the District Court of the Fifth Judicial District of the  
State of Idaho, In and For the County of Twin Falls
- b. License No. \_\_\_\_\_ issued by the Idaho Department of Water Resources.
- c. Permit No. \_\_\_\_\_ issued by the Idaho Department of Water Resources.

2. DESCRIPTION OF PORTION OF RIGHT FOR SALE OR LEASE: (if the entire right is for sale or lease, show "all" on line a. below and skip the remainder of part 2.)

- a. Amount of water under right: 22-7188 (.72 cfs and 263.2 AFA) and 22-7470 (.55 cfs)
- b. Point of diversion: SE ¼ of SE ¼ of Section 15 Township 6N Range 44E, B.M. in Teton County.  
Additional points NENW, T6N., R44E., Sec. 15; SENW, T6N., R44E., Sec. 10; SENESW, T6N., R40E (Madison County-Exchange well 22-7188).

c. Place of use:

TWP	RGE	SEC	N E				N W				S W				S E				Totals				
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE					
6N	44E	9																40				35.2	75.2

If the right is for irrigation, show the number of acres for the part of the right to be put into the bank.  
 Total number of acres 75.2

3. ADDITIONAL INFORMATION ABOUT RIGHT, OR PORTION THEREOF, FOR SALE OR LEASE

a. Explain how the seller/lessor acquired the right, or portion thereof, and attach a copy of the deed to the land to which it is appurtenant or other evidence of ownership of the right. If the right is not recorded in the name of the seller/lessor, attach a copy of a change of ownership form as required by Section 42-248 or 42-1409(6), Idaho Code, together with required documentation.

SEE ATTACHED WATER USE MITIGATION AGREEMENT

SEE ALSO SF5 BLACKLINE FOR WATER RIGHT NO. 22-7188, WHICH SHOWS THE PLACE OF USE OF THE WATER RIGHTS.

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

b. Describe the frequency of water use under the right, or portion thereof, during the past five (5) years of use. Attach watermaster records, pumping power bills, or other evidence to demonstrate that the right has not been lost through abandonment or forfeiture. (This information is not required if a partial decree has been issued on the right within the last 5 years).

SF5s for all of Teton Pipeline Association's water rights were signed on January 16, 2008, and Partial Decrees will be issued soon.

\_\_\_\_\_

c. If the right is from a surface water source, describe the period of the year that water is typically available to satisfy the right.

April 15 to October 31

---

---

---

- d. Describe any other water rights with the same purpose and place of use as the right, or portion thereof, offered for lease. Will the present place of use continue to receive water from any source? If so, describe.

All of Teton Pipeline Association's water rights have the same purpose (irrigation) and place of use. A portion is offered for lease so that one of Teton Pipeline Association's shareholders can legally use the water for the initial filling of ponds at the River Rim Development. This is required under the conditions of Permit No. 22-13714 (Condition No. 8). In 2008, five ponds have been filled. See attached maps and summary table.

---

- e. If the water right is a permit, describe the work accomplished toward developing the right.

N/A

---

---

---

- f. If the right to the use of the water or the use of the diversion works or irrigation system is represented by shares of stock in a company or corporation, or if such works or system is owned or managed by an irrigation district, a written consent of the sale or lease must be attached. See attached "Water Use Mitigation Agreement".

4. REMARKS:

Teton Pipeline Association is the applicant for leasing water rights to the State of Idaho on condition that Teton Pipeline Association can lease the water back for the additional uses.

---

---

5. SALE/LEASE AGREEMENT

1. The water right, or portion thereof, described above is offered to the Idaho Water Resource Board:

\_\_\_\_\_ For sale;

For lease for a period from May 1, 2009 to October 31, 2009  
(Day, month, year) (Day, month, year)

(The lease period may be shown as "indefinite", if the total duration of lease is unknown); or

\_\_\_\_\_ As a gift to the State of Idaho.

2. Show the minimum payment acceptable to the Seller/Lessor. Include the method of determining the minimum payment. The minimum payment may be shown as the "current rental rate".

Current rental rate of \$14.00 per acre foot.

**I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this right for sale or lease to the Idaho Water Resource Board.**

The owner/lessor acknowledges the following:

1. Payment to the owner/lessor is contingent upon the sale or rental of the right from the bank.
2. While a right is in the bank, the owner of the right may not use the right even if the right is not rented.
3. A right accepted into the bank stays in the bank until the Board releases it or until the lease term expires.
4. While a water right is in the bank, forfeiture provisions are stayed.
5. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right.

RE: Permit No. 22-13714

**Permit Approval Notice**

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

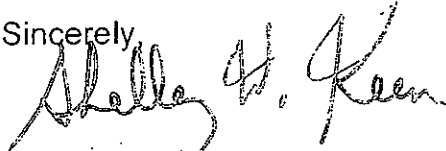

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in black ink and is positioned above the typed name.

Shelley W. Keen, Manager  
Water Right Permits Section

Enclosure(s)

**CERTIFICATE OF SERVICE**

I hereby certify that on August 6, 2008 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

State of Idaho  
Department of Water Resources  
**Permit to Appropriate Water**  
NO. 22-13714

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **August 01, 2013**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.
5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
6. The right holder shall install and maintain an impermeable liner in each pond to eliminate seepage losses.
7. This right and the rights listed below are limited to a total combined diversion rate of 66.80 cfs. Combined Right Nos.: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, 22-13288, 22-7221 and 22-7504.
8. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall rent water from the Water Supply Bank or the Water District 1 Rental Pool for the initial filling of each pond. By March 1 of each year during the development of this project, the permit holder must notify the Eastern Region Office of the Department of Water Resources that water has been rented to fill the ponds anticipated to be constructed and filled that year. Water shall also be provided from either the Water Supply Bank or Water District 1 Rental Pool or from some other source authorized by the Department for any subsequent refilling of a pond that has been drained for maintenance or other purposes.
9. The ponds established by the storage of water under this right shall not exceed a total capacity of 1530 af or a total surface area of 130 acres. This right authorizes the continuous storage of 1530 af originally supplied from the Water Supply Bank and/or Water District 1 Rental Pool and the diversion and storage of 228.5 af annually to replace evaporation losses from the ponds.

State of Idaho  
Department of Water Resources

Permit to Appropriate Water

NO. 22-13714

- 10. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below. Moreover, the official record for the following water rights will be changed to show that diversion and use of water is not authorized because the rights and associated rights of Teton Pipeline Association, Inc., or portions thereof, are being dedicated to mitigation purposes.

Right No.	Use Changed to Mitigation	Mitigation Rate (cfs)	Mitigation Volume (AF)	Mitigation Acres
22-7188	Irrigation	1.25	455	130
22-7470	Irrigation	0.95		130

The total combined mitigation volume for 22-7188 and 22-7470 is 455 af and the total combined mitigation acres is 130 acres.

In addition, because they share the same POU, the following rights will also be reduced by 130 acres: 22-145B, 22-221B, 22-245B, 22-435B, 22-7044A, 22-7044B, 22-7100, 22-7108, 22-7110A, 22-7110B, 22-7111, 22-7116, 22-7119, 22-7120, 22-7121, 22-7122, 22-7148, 22-7157, 22-7159, 22-7180, 22-7181, 22-7186, 22-7392, 22-7470, 22-7188, 22-7208, 22-7209, 22-7211, 22-7216, 22-7223, 22-7235, 22-7295, 22-7360, 22-7375A, 22-7375B, 22-7505, 22-13271, and 22-13288.

The land that will no longer be irrigated by these rights is the place of use for this right.

If the specified mitigation rights, or portions thereof, are sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this permit approval shall be reduced by the same proportion as the reduction to the mitigation rights.

- 11. If the right holder cannot continue to implement this mitigation plan every year for any reason, or implement an alternative mitigation plan that has been reviewed and approved by the department, then the right holder shall cease diverting water under this right.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 5<sup>th</sup> day of August, 2008.

RE: Application to Lease to and from the Water Bank for Teton Pipeline Association, Inc.

Dear Aaron:

Enclosed please find applications to lease water to and from the Water Bank along with the associated documents, filed on behalf of Teton Pipeline Association. As you might recall, we previously submitted an application to lease to and from the water bank, but the application was deficient in two major areas. First, the period sought in the initial application was a period from May 1, 2008, to October 31, 2008. In your letter dated November 10<sup>th</sup>, you indicated it is not possible to lease water after the fact. The enclosed application for a period of May 1, 2009, to October 31, 2009. As contained in the lease documents, the lease is necessary to document the initial filling of five ponds on the River Rim Property, which is required pursuant to Permit No. 22-13714. A copy of the approved license is enclosed for your reference.

Additionally, in your letter of November 10, 2008, you indicated that it is necessary to specify the water right being offered for lease. We have done that, and as you can see, they comport with the water rights listed in approved Permit No. 22-13714 as the water rights that provide mitigation under that permit. If you have any questions or concerns, please let me know. Otherwise, we anticipate you will inform us of the amount that needs to be paid in order for the lease arrangement to be accomplished. Once you have an opportunity to review these documents, we would request you contact us with the amount that needs to be paid, and we will remit payment as soon as possible. We appreciate your kind assistance with this matter.

Best Regards,

Robert L. Harris  
HOLDEN, KIDWELL, HAHN & CRAPO, P.L.L.C.

Enclosures

## ① Lease:

- offering 75.2 acres of 22-7188 & 22-7470. Acres yield 263.2 af. at 3.5 afa. The rate/acre than offering is a bit higher (0.016"/acre) than the historical combined (0.014"/acre). Note this is off their combined 429 acre limit.
- lease doesn't list the Sec 3 rediversion point, also doesn't include some of the 10-acre subdivision descriptions
- the 40 acres in the NESE of Sec 9 of the 75.2 acres offered is already listed as a storage pt. on the permit. Perhaps not a problem if pond proposed there not built?

## ② Rent:

- the point of diversions listed are all screwy
- place of use (i.e. location of the 5 ponds) not listed.
