CONDITIONS OF APPROVAL

3. The rights in this transfer are limited to the irrigation of a specific 417.0 acres within the 534.0 acre place of use authorized by the rights in a single irrigation season. The specific 417.0 acres to be irrigated by the right holder shall be identified prior to use by submittal of a land list and a representative electronic shape file or by submittal of a land list and a map sufficiently detailed to allow creation of an electronic shape file to be associated with this right in the geographic information system component of the water rights database maintained by the department. Before changing the 417.0 acres to be irrigated within the 534.0 acre place of use, the right holder shall submit a new land list and representative electronic shape file or map to the Department prior to the irrigation season in which the change will occur.
4. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
5. The right holder shall record the quantity of water diverted and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
6. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point of diversion in accordance with Department specifications.
7. Prior to the diversion and use of water under Transfer approval 76346, the right holder shall install and maintain an acceptable measuring device at the authorized point of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
8. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
9. Right 36-15119 is also diverted through the point(s) of diversion described above.
10. Right No. 36-15119 is an enlargement of this right pursuant to Section 42-1426, Idaho Code.
11. The quantity of water decreed for this water right for domestic use is not a determination of historical beneficial use.
12. The quantity of water under this right for domestic use shall not exceed 13,000 gallons per day.
13. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
14. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
15. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
