Re: Permit applications for wildlife ponds – Lava Lake Land & Livestock
Project No. 869-05-2010

Dear Allen:

Enclosed are two Applications for Permit to allow construction of two shallow ponds for the purposes of wildlife enhancement. The proposed activities are described in further detail in the attached narrative. Because the ponds will be constructed within areas characterized by very shallow groundwater and actively-growing wetland vegetation, it is assumed that no permanent mitigation will be required, per IDWR policy. However, temporary irrigation reduction has been identified to provide sufficient storage volume to fill the ponds during the first year of operation.

Enclosed is the application fee of \$200 to cover both permits. Please do not hesitate to call if any questions arise.

Cordially,

Charles G. Brockway, P.E.

Cc: Lava Lake Land & Livestock
Alan Sands, IDF&G
