RE: Application for Extension of Time to Avoid Forfeiture of a Water Right

Dear Mr. Gates:

While reviewing the applications submitted for water right nos. 34-469 and 34-471, it became apparent that the place of use noted on the application did not match the place of use for the water right. You also indicated that 176 acres were not going to be irrigated, while each of the water rights allow for the irrigation of 213 acres. I then discovered that the water right files for these two water rights had an error in the place of use. The place of use has been corrected and I have enclosed a water right report for each of these water rights.

The place of use on the applications for these two water rights still does not match the corrected place of use for these water rights. Before the applications for extension of time to avoid forfeiture can be approved, the department will need clarification as to whether or not you intended to include the entire water right. Please write a letter which states your intent. If you only intended to include a portion of the water right, please indicate the areas that will be irrigated on the enclosed map. I am also returning the applications for you to note the corrections needed.

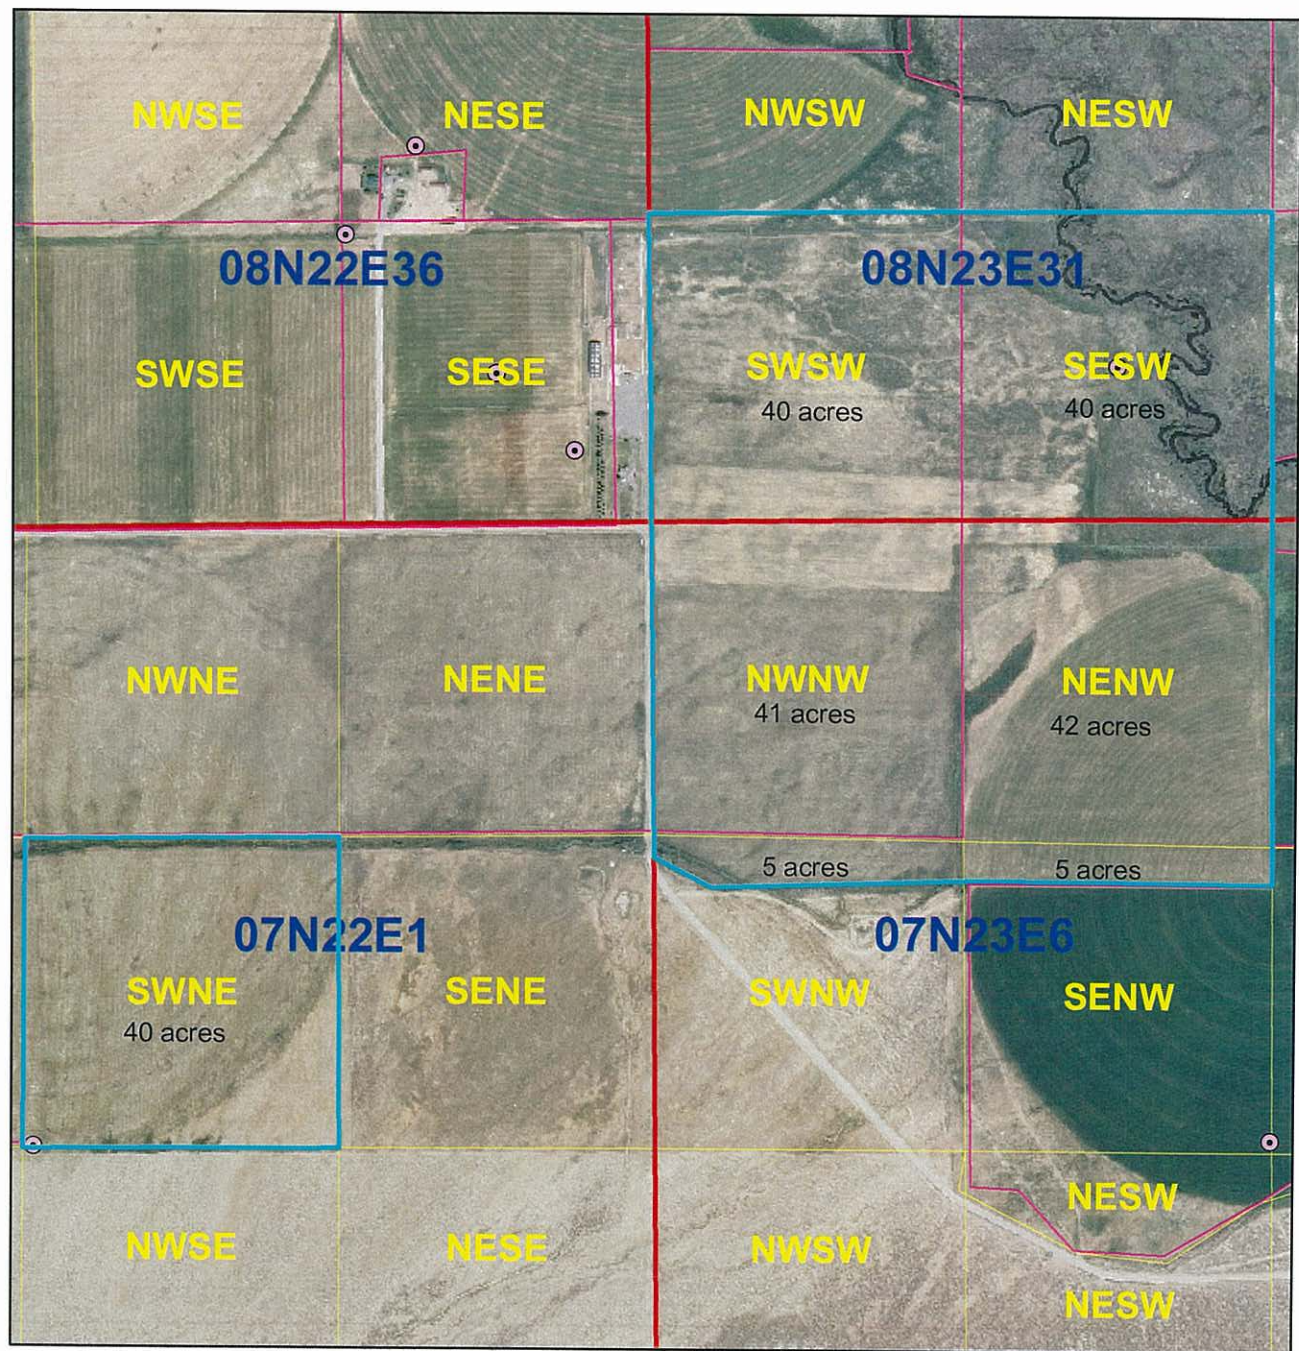

I will hold this matter for 30 days to allow you time to respond. If you have any questions, please call me at 208-287-4952.

Sincerely,

Emalee Rushing
Office Services Supervisor
