Re: Applications for Transfer Nos. 73764, 73765 and 75556

Dear Jennifer:

The transfers referenced above have been assigned to me for review and processing. Transfers 73764 (water right nos. 65-2946C and 65-7052E) for Blackhawk Lake and 73765 (water right no. 65-7535) for Banana Lake were filed together in 2007. Transfer 75556 (water right no. 65-12136B) for Blackhawk Lake was filed in 2009. It appears 75556 was filed later because a Partial Decree for the underlying right was not issued by the SRBA Court until January 2009, however, the three transfers can be processed as one administrative action.

If this is correct, and your client has no objection, IDWR would like to retire all three transfer numbers, issue a new number and process all of the transfer actions as one transfer. The only action required of you or your client is assent. No new transfer application is necessary. Please let me know in writing by April 16, 2010 if this is acceptable.

I can be reached at 208-334-2190 if you have any questions.

Sincerely,

Vicky L. Music
Sr. Water Resource Agent
