RE: Transfer No. 73745 (Create PPU for irrigation)

Dear Mr. Millenkamp:

As you know Jim Stanton from our office has been working on the above referenced transfer with your consultant Gary Funderburg for a couple of years. Jim recently retired but before leaving corrected the application and got it advertised. (There were no protests)

Currently I'm left with finalizing the data entry and creating the approval document. Jim left several review memos and versions of maps which will aid in my review. Since I'm not intimately familiar with this application and since the file for this transfer is very large due to the various revisions I think it appropriate for you to review again the final map which will define your water rights before I issue the final approval. (Note that the approval document is likely to be a couple of hundred pages so I want to get it right the first time.)

As represented by the file the purpose for the transfer is to tie 5 farms together with an interconnected well network consisting of 17 wells. The transfer deals with 39 water rights and as the approval is being drafted will provide diversion of 69.98 cfs for irrigation of 4631 acres. Note that during Stanton's review some of the water rights have not been used for over 5 years and some acres have been found to be forfeited.

Please review the attached map showing the location of the authorized acres and the location of the 17 wells being considered for approval. (I understand from the file that you may have reviewed a map in the past that Jim sent you but it is not obvious from the file which map you reviewed.) Included with the map is a printout of the well locations and the acreage location to aid in your review. Please review these and in particular the number of wells in the system. Some of the water rights included in the transfer were associated with other wells that are not now included in the combined system; possibly they have been abandoned. Once you complete your review please let me know of any concerns and we can move forward to approval. If I do not hear from you in 10 days I will move forward to approve as the map outlines. If you have questions feel free to contact me at this office.

Respectfully,

Allen Merritt, PE
Southern Region Manager

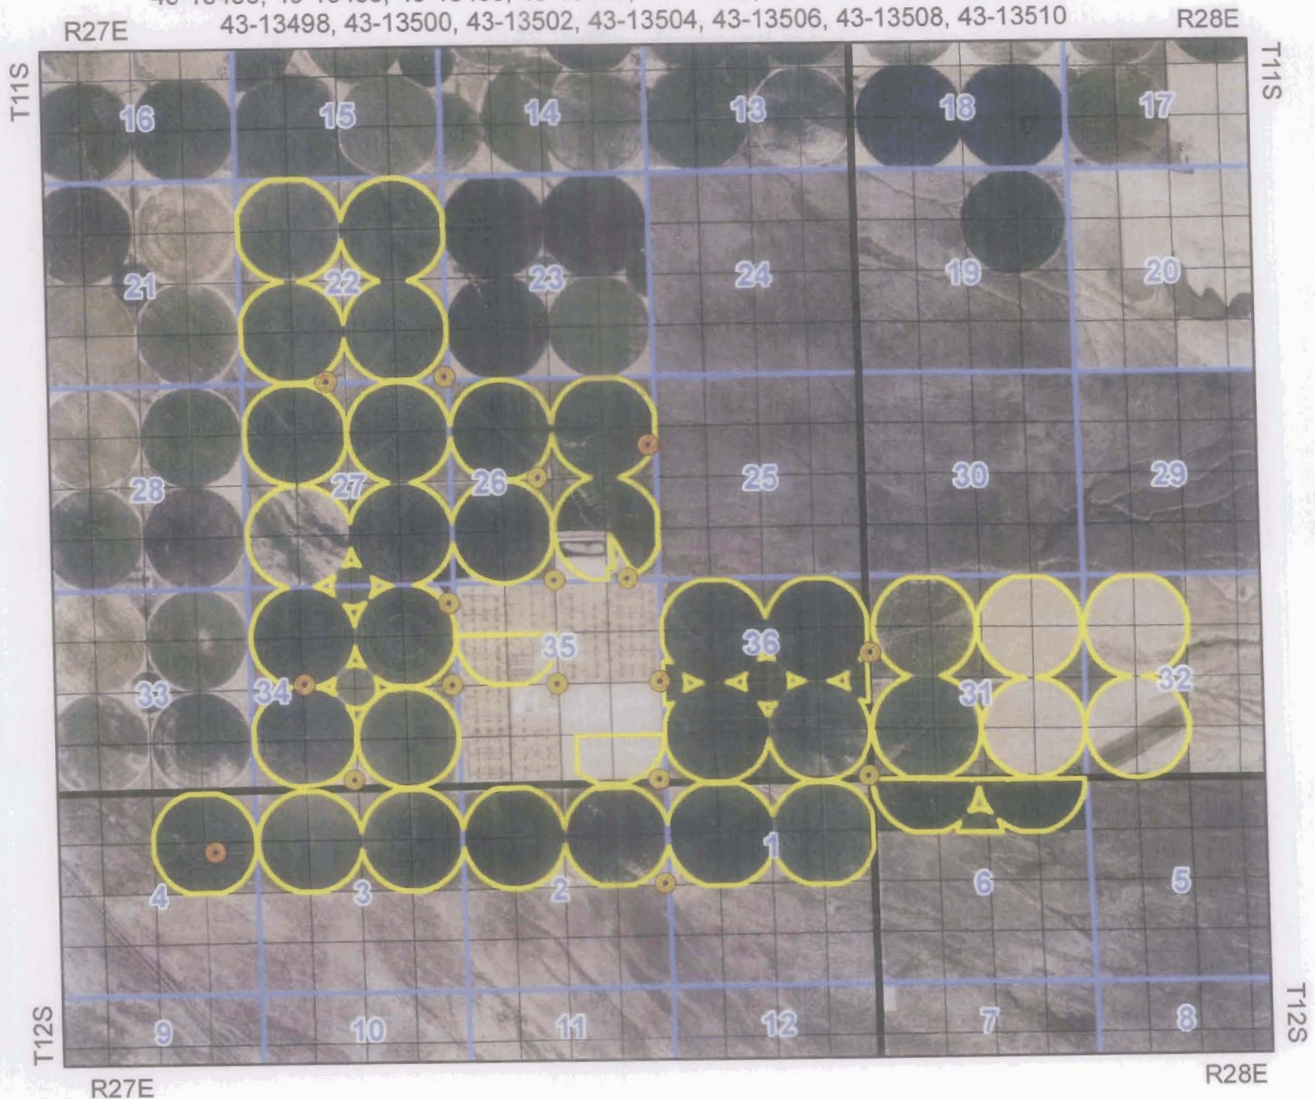

CC: Gary Funderburg

*Funderburg called & indicated Millenkamp 5243 the proposed map is OK.
