RE: Water Right Permit No. 11-7452

Dear Permit Holder(s):

The Department of Water Resources is re-evaluating your above referenced permit as part of our routine prior to issuing a water right license. Upon further review, it appears that the point of diversion described on the amendment that I previously mailed to you include an error. There should be two points of diversion associated with the pond and the spring. Therefore, two points of diversion will be listed under the heading, **Location of Points of Diversion.**

In addition, the Department modified the maximum diversion volume from 2.5 acre-feet to 2.8 acre-feet, which is the total annual diversion volume.

By signing and returning the enclosed Application for Amendment forms, the Department will assume that you agree with our findings and wish to withdrawal the amendment forms that you had originally signed. The amendment fee has already been paid and no additional fee is due.

If you have any questions, please call me at (208) 287-4944.

Sincerely,

Cherie Padilla, Sr. Water Resource Agent
Water Allocation Bureau
