** We camp on this property in a travel trailer each summer approx. June through August. We remove the trailer from the property approx. Sept. through May.

We use a $\frac{1}{2}$ HP pump, 1 (one) inch hose and a 15 gallon pressure tank for water (we also use water brought from home & stored in the trailer's holding tanks for certain uses in the trailer).

The 1 (one) inch hose end is a foot valve with a screen of approx. $\frac{1}{16}$ inch mesh.

All of the water use items are non-permanent and are removed from the camping site approx. September through May each year.
