Keith,

It appears to me that Henrys Fork Village Water Company would qualify as a municipal provider under Idaho Code Section 42-202B(5)c. Therefore, IDWR would entertain applications to amend the permits from domestic use to municipal use.

If amended, the permits would be limited to the annual volumes contemplated by the original permits. The real advantage of changing from domestic use to municipal use would be dropping the conditions that limit the rights to specific numbers of homes and describing the place of use more generally.

Since there is already a Beneficial Use Field Report for 21-7446, IDWR could propose the change in a licensing amendment. Please let me know how your client would prefer to proceed.

Shelley,

Our client wanted to know if these two permits for domestic use could be changed to municipal. I said that I'd check to see what needed to be done to do so and what advantages or disadvantages he would incur.

I'd appreciate your thoughts & suggestions.

Thanks,

Keith C. Wilson
