Gentlemen:

One of the conditions of approval of your water Permit No. 37-7045 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Apparently our letter of October 12, 1970, has caused some confusion. Therefore, we would like to take this opportunity to clarify our letter.

We are enclosing a copy of the decree case #310, of the fourth judicial district, State of Idaho, in the County of Gooding. On this decree, our number 37-0808 has been identified as the first right in our letter of October 12, 1970.

The second right is identified in the decree as right #37-1816. Our letter of October 12, 1970, referenced the place of use in Section 37, which is a typographical error, and should have read Section 36.

Also, in our letter of October 12, 1970, the third identified right is a permit issued by this department on the 23 of June, 1969, #37-7045, to Hill City Bliss Farms. The source of water supply is Clover Creek. The quantity is 5.0cfs. The priority date was shown in error, and should be April 22, 1969. The use is irrigation, and the period of use is April 1, to November 1. The place of use is T. 1 S, R. 12 E, Sec. 3, W $\frac{1}{2}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$. We have been advised that the point of diversion, and place of use under Permit #37-7045 are to be amended, and we are enclosing an application for amendment form for your use in this matter.

Under Permit #37-7045, the permit holder has until June 1, 1974, within which to place the water to full beneficial use. On or before this date, the permit holder must submit an affidavit evidencing the extent of the beneficial use to the Department of Water Administration. Following receipt of such an affidavit, we would conduct a field examination and propose a water license. We are enclosing a beneficial use affidavit for your future consideration. If we may be of any further assistance, please advise.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Our records fail to indicate any forfeiture of abandonment of the decreed rights. Therefore, we assume that they are in good standing. It should be noted that in order to forfeit the rights, a court action would be necessary. The permit is in good standing, and if the permit holder complies with the conditions of approval on or before June 1, 1974, the department will issued a water right in connection with this permit.

If we may be of any further assistance in this matter, please advise.
