Steve,

Sorry for the mix up. I'm still trying to figure out the nese sene thing. You are correct the house is in the same nese section that the well is in.

Dear Applicants:

You filed a new water right application for a domestic well in the Riggins area. The application has been numbered 78-12388. The application identified the well site in NESE Section 21 but the home site in SENE of that section. The latter is probably a typo since SENE is north of your property and on the other side of the river.

The assessor's information identifies your land in NESE, which matches your well site information. Please send your reply confirming the home site will be in the same portion of the section as the well site, NESE. Your reply will serve to amend the application as needed.

I am sending this email to two versions of your email address: fireh2o vs. fire_h2o ... was not too clear on the application.

Thank you for your attention to this matter.

Steve Lester
Water Rights Supervisor
IDWR Western Region
tel: 208.334.2190

POU 1/4 1/4 confirmed as NESE.
Email serves to correct the Application.
