Re: Amended Water Right Permit Applications 71-10922, 71-10923, and  
Amended Water Right Transfer Application 75469.

Dear Corey,

Thanks for taking the time to meet yesterday with Chuck Jr and myself at IDWR's Southern Region Office regarding the Tierney's water right transfer and permit applications. Enclosed are amended water right permit applications 71-10922 and 71-10923 and amended water right transfer application 75469. Amended applications 71-10923 and 75469 were previously submitted to IDWR on 7/8/10 along with a limited power of attorney document and an additional information narrative. Based on your review yesterday, these applications did not need to be changed. Please refer to the accompanying applications' 7/8/10 cover letter for background explanatory material. A new map accompanying the water right transfer application has been included showing the location of the existing irrigation well used by water right 71-7169. The acreage proposed to be converted to an aesthetic use in transfer application 75469 to mitigate for the evaporative consumptive use of the newly proposed open water is the physical area where the proposed pond and delivery ditch (0.72 acres) are to be constructed.

Amended water right permit 71-10922 seeks to appropriate 0.28 cfs in addition to the 1.0 cfs allowed under recently licensed water right 71-7169. The new permit 71-10922 intends to raise the allowable diversion rate under both irrigation water rights to 1.28 cfs on 64 acres. Additionally, amended water right permit 71-10922 reflects the place of use change proposed in water right transfer 75469 (dry up of 0.7 acres) as was discussed in your office yesterday afternoon.

Additionally, the correct address for Mr. and Mrs. Tierney is as follows:  
Elizabeth C. and Thomas T. Tierney  
2802 Dow Avenue  
Tustin CA, 92780

WASHINGTON  
STREET • SUITE 4

TWIN FALLS,  
IDAHO 83301

208•736•8543

FAX: 736•8506

We have also included a check from Brockway Engineering for \$120.00 for the amended water right permit application 71-10923. Previously, \$350.00 has been submitted to IDWR (receipt #'s S030725 and S031349). The amended transfer and permit application fees total \$470.00 which is why the remaining \$120.00 fee is attached. If you have any questions or comments, please don't hesitate to give me a call.

Regards,

A handwritten signature in black ink, appearing to read 'Zach Latham', with a long horizontal flourish extending to the right.

Zach Latham, M.S., Hydrologist
