**Subject:** Dry Lot LLC - Draft Approval Documents

Travis,

Attached are draft approvals for Transfer 74449 and Permit 37-22252. On the draft transfer approval, I incorporated your suggestion to modify condition no. 2, deleted the condition referencing injection well requirements, and removed the annual volume from the face of each right. The annual volume limitation remains described in condition no. 2. The draft permit approval remains unchanged except for a new proof of beneficial use due date. Please review the draft approval documents and reply at your earliest convenience. I will be out of the office this afternoon but will return Monday morning.
