

MEMORANDUM

Date: July 6, 2010
To: Transfer 76465
From: Michele Edl
Re: status

I phoned U.S. Geothermal this morning and spoke to Mr. Scott Nichols. I told him that I had completed my review and had notified the Southern Region office. I explained that they would be responsible for advertising the transfer and that he should expect a notification from them providing him the details.

He confirmed for me that they could complete the change requested by the transfer in one year. He also stated that the nature-of-use would be unchanged for several years.
