

MEMORANDUM

TO: Water Right File 47-29/Transfer 76469

FROM: Sandy Hemenway

DATE: July 29, 2010

SUBJECT: Phone Conversation with Water Master WD47C

I called Raymond Ruffing (208) 543-4680 this morning to see if he had any concern/comments, and if he approved or disapproved of the transfer 76469, with Simplot Trust.

Raymond stated that he had no concerns with the transfer, and was pleased that it was occurring, since it would prevent cattle from going down in the canyon. He stated that he had already been out to the place of use and point of diversion and seen the pump.

Raymond stated that he would email a note in reference to our conversation (his email address: H20man@filertel.com)
