Hi Pam,

Just talked to Chuck Sr. and he confirmed that 2 of the ponds are in the SESE of Section 8 and one is in the NENE of Section 17, just like the 2009 photo shows. You can update the shape for storage accordingly. Jeanie

Subject: Visser transfer question

Chuck,

The State Office is finishing up the final steps on the Visser transfers. They had a question though about the location of the storage for right 47-7642. They think, and it looks like to me, that the ponds/lagoons are in the SESE of Sec. 8 and the NENE Section 17, T10S, R13E. I've attached a map and they wanted me to confirm this before they make shapes for the storage use. Please let me know if our assumptions are correct as soon as possible so they can complete the process. Thanks, Jeanie
