Re: submittals

As a response to a request for information in the licensing review of 21-7566 (for hydro power), the permit holder of both 21-7566 and 21-7569 (for recreation storage) submitted a two-part email. Part one was relevant to the process at hand; licensing for 21-7566. Part two and the attached pdf files, was information relevant to permit 21-7569 and has been added to this file.

A field exam report has not yet been completed for this permit 21-7569 so I am not able to complete the water rights review and issue a license for this use at this time. I informed the permit holder in a phone conversation earlier this month.

Subsequent to that conversation, he sent additional information relevant to this permit, including a composite survey of the site.
