APPROVED

ACT OF THE DEPARTMENT OF WATER RESOURCES

058957

This Permit is _____

Date

7/21/2010

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

GENERAL CONDITIONS:

1. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare, which may be required before construction of the well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
3. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho. If the well being drilled is associated with approved water right(s) use of the well must comply with conditions of said water right(s).
7. If a bottom hole temperature of 85 or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "DigLine" Number for your area is 1-800-342-1585.
9. Please be advised that this drilling permit should be considered and treated as a preliminary permit. If you are in disagreement with this preliminary permit you have fourteen (14) days of the service date of this permit to petition the Department for reconsideration pursuant to Section 67-5243, Idaho Code.
10. The well tag for the drilling permit/start card shall be securely and permanently attached to the well casing through welding or by the use of four closed end domed stainless steel pop rivets. The tag attachment will be done at the time of completion of the well, and prior to removing the drill rig from the drill site.

SPECIFIC CONDITIONS:

11. The new well shall not be used to irrigate in excess of $\frac{1}{2}$ Acre associated with the home until Transfer # 76686 is approved to add this well to right # 63-10110.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Vance Stuart Cooper, The Property Owner
(Applicant), requests issuance of a Drilling Permit prior to obtaining the required water right. The request is made by the applicant for the following reason(s):

Everything treewise is dying need asap.

The Applicant understands that the approval of a drilling permit and subsequent construction of a well does not constitute an approval of a water right or intent to authorize diversion or use of water from the well in any way.

Additionally, the Applicant acknowledges that by obtaining a drilling permit and constructing the well, the Applicant accepts all risk(s) associated with completing the well prior to obtaining the associated water right. If the water right is not ultimately approved for use, the applicant understands that the Department may require decommissioning of the well.
