

MEMORANDUM

TO: File
FROM: Monica Van Bussum
DATE: July 15, 2010
RE: Licensing 63-12560

This memo serves to document recommendations for licensing 63-12560.

Applicant: Same as permitted; no change.

POD/Source: Permitted POD in T03N R01E Sec 18 NWNW. The field exam and subsequent correspondence with Ed Squires (see email of July 22, 2010) indicates the POD is in NENW, so I have prepared an amendment.

Water Use: Developed as permitted.

POU: City of Meridian municipal service area, as permitted.

Conditions: Added condition 180 so map could be included.

At the time the permit was issued, the department was concerned about the location and depth of wells in this area. The permit condition which defines the water bearing zone addresses those concerns. The well screening shows compliance with permit conditions. Additional information has become available to the department which eliminates the need to retain the water bearing zone condition. This POD is currently considered to be located outside the area of concern so that condition was not carried forward to the license.
