RE: Water Right Permit No. 63-31957

Dear Lori:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified the water use reported that certain elements of the permit have been developed differently than described. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, the permit must be amended to depict water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

_____ **Point(s) of Diversion**

_____ **Place(s) of Use**

___x___ **Other (Nature of Use)**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days.

If you have any questions, please call me at (208) 287-4907. I am also enclosing the Preliminary Order reinstating Permit 63-21957.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent
