

## MEMORANDUM

**Date:** July 21, 2010  
**To:** Transfer 76544  
**From:** bjordan  
**Re:** Transfer Evaluation

---

This transfer proposes to add a point of diversion for water right 75-14599. The new point of diversion is associated with a buried pipeline installed in 2003. The applicants primarily divert all their water through the installed pipeline but want to keep the existing point of diversion as a backup.

**Authority to File:**

The applicants are the owner of water rights per IDWR record and property per warranty deed. Easement for the point of diversion and pipeline is provided through warranty deed.

**Water Right Validity:**

Decreed in 2008. Forfeiture is not an issue.

**Injury to Other Water Rights:**

Not within the ESPA nor a WD. Transfer was advertised and there were no protests. There are approximately 14 other water rights that are diverted at or in between the existing and proposed POD. The applicants have an earlier or same priority date than those who divert at or in between the existing and proposed POD. No injury issues identified.

**Enlargement of Use:**

No issues identified

**Local Public Interest:**

No issues identified.

**Beneficial Use / Conservation of Water Resources:**

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
