RE: Condition 10 requirements have been satisfied.

Dear Shelly:

Per the instructions of the Order Modifying Lockable Device Requirement for permit 75-14607, we have purchased a medium grade chain and pad lock, wrapped the chain through the pump, and around a fence post. We then locked the pad lock and gave both keys to our Water Master, Gary Lowell (208-940-2383). Thus, fulfilling the requirements stated in the Order, condition 10.

This action should satisfy the condition 10, and provide a means of curtailing the diversion of water, and securing the diversion works.

We have enclosed 2 pictures that show the alternative locking works.

Please let us know when you receive this correspondence, and when we can expect our permit.

Sincerely,

Joe and Sandie Engle
