Re: License Review

The original field exam was received in 2001. The acreage for the POU was not accurate so this license is based on dcarlsons recommendations in 2007.

POU Overlap
No overlapping rights found.

Permit Conditions
#5 of the permit states that the right holder shall use surface water. It is unknown why that condition was placed on the permit since it appears that there has never been surface water at the POU. I called and verified with the right holder that surface water is not used at the POU.
