RE: Water Right Permit No. 22-07697 (Split to create new right 22-13973)

Dear Permit Holders:

The Idaho Department of Water Resources (department) acknowledges receipt of correspondence changing ownership and splitting the above referenced permit. The department has modified its records to reflect the change as follows:

Water Right Permit Ownership	Northwest Farm Credit Services FLCA	Sidney Highnote
22-7697 Sec. 12 T6N R44E	x	X
22-13973 Sec. 11 T6N R44E	x	

In addition, the department is reviewing the permits referenced above prior to issuing water right licenses. By issuing a license, the department confirms the extent of development that has been established in compliance with the terms of the permit. A review of department records associated with your water use found that certain elements of the permits have been developed differently than described on your permit(s). Changes that do not increase the authorized use of water under the permit(s) can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license(s) can be issued, your permit(s) must be amended to depict your water use as it was actually developed.

Based on the well driller's report and aerial imagery, the following elements were developed differently than described on your permit:

 x Point of Diversion (the well is located in Sec. 11 not Sec. 12)

The enclosed Application for Amendment forms depict the elements of the water right as they will appear on the license(s) when issued. Please review the amendment
