CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2013**.
2. Subject to all prior water rights.
3. This right does not grant any right-of-way or easement across the land of another.
4. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
5. Domestic use is for 2 permanent domestic staff apartments, 1 seasonal staff quarters, 7 RV volunteer campsites, 1 park shop and 5 cabins.
6. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the lands above.
7. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
8. Water shall not be diverted for fire protection use under this right except to fight or repel an existing fire.
9. Prior to the diversion and use of water under this approval, the right holder shall comply with applicable water quality permitting requirements administered by the Department of Environmental Quality or the Department of Agriculture.
10. Commercial use is for a park visitor center and park store.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this 7th day of April, 2010.

GARY SPACKMAN, Interim Director

RE: Permit No.97-7490

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 762-2800.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith E. Franklin". The signature is stylized with a large, sweeping "K" and a cursive "Franklin".

Keith E. Franklin

Sr. Water Resources Agent

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on April 8, 2010 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

97-7490

**STATE OF IDAHO DEPARTMENT OF PARKS AND RECREATION
STATEHOUSE MAIL PO BOX 83720
BOISE ID 83720-0065**

A handwritten signature in cursive script, reading "Carolyn S. Monitz", is written over a horizontal line.

**Carolyn S. Monitz
Technical Records Clerk**

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Hi, Sheri,

Please publish the enclosed legal notice on the dates indicated, February 18 and 25, 2010, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately. Trusting I've made it in time, considering the holiday this coming Monday.

Please send proof/preview copy for my review. I'm trying to match your column widths but occasionally we need minor adjustments.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 3/8/2010. Your cooperation is appreciated.

Application For Permit No. 97-7490

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE, PRIEST RIVER TIMES on 2/18/2010 and 2/25/2010. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Keith Franklin
Sr. Water Resource Agent

NARRATIVE

ATTACHMENT 2

Priest Lake, Indian Creek Unit

Water System

Application Purpose:

1. To replace and cover uses of abandoned spring right 97-02057.
2. Replace those existing uses with a new groundwater water right.
3. Combine and apply for the maximum capacity of the current well for those prior spring uses and any other uses not covered under existing groundwater right 97-07158.
4. The defined uses in this narrative may serve to help IDWR determine what uses have changed under 97-07158, how to deal with additional capacity and new uses that may not be covered by the existing groundwater right 97-07158.

Description of Uses:

Domestic

The Existing Indian Creek Campground is comprised of a mix of water and non-water-hookups for 93 campsites. The existing water right 97-07158 covers hookups for up to 82 RV spaces, which includes three RV volunteer camp host sites within the redesigned Indian Creek campground, loops A, B, C, D & E. When the campground was redesigned in 1993, the county required that no additional water RV hook-ups could be added. Currently there are 73 of the 82 originally authorized RV hookups in the redesigned area.

There are 14 central water faucets throughout the redesigned Indian Creek campground; in the day use area, next to the cabins and next to the boat launch.

The existing water right 97-07158 covered 13 restrooms and 10 shower stalls. Those buildings were replaced, and the new replacement restrooms combined the bathroom and shower houses into three bathroom combo shower houses into the campground and are described below: Shown on attachment 1.

Shower house #1 is a concrete CXT building with five toilets, one urinal, four showers, four bathroom sinks, and a water faucet in the pipe chase for cleaning the restrooms.

Shower house #2 is identical to shower house 1.

Shower house #3 is a wooden structure with a total of five showers (including a handicap shower), five toilets, one urinal, four bathroom sinks, one janitorial sink, one clothes washing machine (for washing cleaning towels), and four faucets for cleaning the facility.

It is planned for summer of 2010 to build a dish washing station for the campers that will have one kitchen sink.

Water right 97-07158 covers three domestic permanent staff houses, shown on attachment 1, as "Staff house 1", "Staff house 2" and "Staff house 3."

The RV dump station is also covered by water right 97-07158. It has one septic cleaning faucet, and two potable water faucets. The dump station was moved from its original location under the licensed right and will be claimed as an accomplished POU transfer for the North Idaho Adjudication phase III claim taking.

New existing domestics for this application are:

1. Two permanent domestic staff apartments over the old store. The two staff apartments are small and each apartment has one kitchen sink, one toilet, one shower and one bathroom sink. Shown on attachment 1.
2. One seasonal staff quarters, shown as "Staff House 4". The seasonal staff quarters will sleep up to eight individuals, and has one kitchen sink, two toilets, two showers, and two bathroom sinks. Shown on attachment 1.
3. Seven RV volunteer campsites all have water hookups. Shown on attachment 1.
4. The park shop has one toilet, one bathroom sink, one shower, and one outside faucet for washing vehicles. Shown on attachment 1.
5. Five sleeper cabins which do not have hookups, however they have the use of 2 outside faucets for potable drinking and culinary purposes, and no restrooms. Shown on attachment 1.

Commercial

The new commercial water use areas consist of the visitor center and the park store. The visitor center has a reception center, three enclosed offices, four office cubicles, a conference room for up to fifty people and two restrooms. There are three toilets, one urinal, two bathroom sinks, a janitor sink in the mechanical room, and a small bar sink in the office area. There are also three outside faucets.

The park store was connected to the Indian Creek park water system in 2004 and the stores old well was discontinued at that time. The park store consists of retail space, one small office, a staff restroom, a public laundry room with two washers and a stock storage area. The water use consists of one toilet, one bathroom sink, one dish washing sink in the ice cream serving area, and two laundry washers. There are also two outside faucets.

Irrigation

There is a lawn sprinkler system around the visitor area. This sprinkler system covers an area of approximately $\frac{1}{2}$ acre. There is a stubbed line to irrigate another $\frac{1}{4}$ acre when funds become available in the future. This system is connected to the visitor center water system.

The three staff residences, "Staff House 1, 2 and 3", each have lawns of approximately $\frac{1}{4}$ acre and are watered manually from the external house hose bibs on each house.

Total irrigation = 1.5 acres.

Fire protection

The visitor center has a built in sprinkler system that requires 1500 GPM flow.

There are two fire hydrants. One is located in the visitor center plaza, and the other is located in Loop A of the Indian Creek campground. There is an 8" water line, which is capped at this time, that can be extended to the lower part of the Indian Creek campground where two more fire hydrants will be installed when funding becomes available.

Water System Description

The water system consists of one well 80' deep with 8" casing. A 3HP pump is set at 60'. The pump is controlled through a pump house. The water is then fed to a 38,000 gallon reservoir, and then to the facilities in the Indian Creek unit. See attachment 1.

WELL DRILLER'S REPORT

State law requires that this report be filed with the Director, Department of Water Resources within 30 days after the completion or abandonment of the well.

Re: Application for Permit, Indian Creek Unit of Priest Lake State Park

A new Application for Permit is being submitted for the Indian Creek Unit of Priest Lake State Park, along with the required fee.

Please call me if you have any questions. I can be reached at 208-514-2482, or by email at mary.lucachick@idpr.idaho.gov.

Sincerely,

Mary Lucachick
Water Resource Analyst
