RE: Conversation with Lawrence Calkins

Yesterday Lawrence Calkins telephoned in response to my order voiding Permit 37-21384. Mr. Calkins wanted to know what could be done to save his permit. He admitted that he had not mitigated as required, but he still hoped to retain the permit.

After some discussion, I agreed that if he would petition for reconsideration of the order and indicate in writing that he would use the right for in-house use only, I would see if the permit could be reinstated. The proposed solution does not absolve Mr. Calkins from having irrigated lawns in connection with the permit without mitigating. However, it does remove the need for mitigation in the future, and it maintains a water right for the in-house use in this small subdivision.
