Re: Applications in the names of J & G Development Inc., Reed Ditch Co. and Letha Irrigation & Water Co.
for Woods Ranch Subdivision

Dear Lori:

Several applications were filed from June through October 2007 for the above referenced entities. The applications have been held without processing based on a November 2007 request from your office. The Idaho Department of Water Resources (IDWR) should process the applications or otherwise terminate them in some manner as noted below.

The applications are summarized as follows:

1. J & G Development Inc. - Application for Permit 65-23127, wells for domestic and stock uses, \$250 payment.
2. J & G Development Inc. - Application for Permit 65-23156, shallow ground water ponds for an amenity, \$410 payment.
3. Reed Ditch Co. - Application for Transfer 74309, mitigation for above ponds, \$100 payment.
4. Letha Irrigation & Water Co. - Application for Transfer 74310, mitigation for above ponds plus minor records-correction for irrigation, \$250 payment.

The applications can be withdrawn and full refunds can be issued for the above payments if the applicants no longer want to proceed. The enclosed forms can be used for that option.

The applications can be processed based on written confirmation from the applicants in this regard. Since you are the consultant for all the applicants, your reply on their behalf would be acceptable for this option.

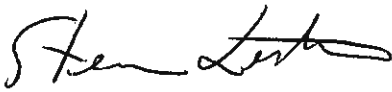

Woods Ranch Subdivision
January 5, 2010
Page 2

Because the applicants asked IDWR to hold the applications for over two years, the department would probably not approve a request for more time for the applicants to decide what to do.

Without a written reply within the next thirty (30) days, IDWR will issue a preliminary order to void Applications 65-23127 and 65-23156 and to reject Applications 74309 and 74310. Application fees will not be refunded for voided or rejected applications.

Please let me know if you need more information. Thank you for your attention to this matter.

Sincerely,

John,

Gary Madenford asked me if there is a way to process his applications. I told him that the applications for transfer (filed by Lori Graves) would have to take their turn, but sometimes we expedite the domestic portions of applications for permit. Would you please see if 65-23127 qualifies for expedited processing under this consideration?

Thanks, Dave

Dave,

As per our discussion on the urgency of this application, would you please ask your SW Regional Office to expedite the application for permit No. 65-23127 for two domestic wells that were filed with IDWR under J & G Development, Inc., on June 14, 2007. We would need the permits by February, 2008 in order to start construction this spring.

Your help is very much appreciated.

Thanks,

Gary

Application for Permit No. 65-23127 Amendment

Dear Western,

Enclosed on behalf of J & G Development, Inc. is an Application for Transfer in the name of Reed Ditch Company and an Application for Transfer in the name of Letha Irrigation and Water Co., Inc. The transfers seek to mitigate Application for Permit No. 65-23156 filed with IDWR August 20, 2007.

The fee for each transfer was calculated based on the quantity of water being transferred, not the amount of the entire right. Check No. 1268 for \$350 is enclosed; \$100 for the Reed Ditch Company transfer and \$250 for the Letha Irrigation & Water Co., Inc. transfer.

Also enclosed is an Amended Application for Permit No. 65-23127. The original application was filed with IDWR June 14, 2007. Two wells are still proposed, however, additional points of diversion have been added for flexibility in development of this application.

Please let me know if there are any questions.
