Subject: water right in Salmon

Monica,

I am sending you a fax of this signed note regarding a water application by Joe and Sandy Engle of Salmon Idaho. You had indicated to them to contact me(the new water master on Jesse Creek 75A).

They will not need a lockable controllable device for the waste water right for which they have applied.

If that is the only issue in debate, you may proceed with finalizing the application.

I hope this will suffice.

Gregory P. Lowell
Dated 6-14-2010
