Permit to Appropriate Water

NO. 63-11791

6. Water stored under this right is subject to fluctuations of the water table caused by changes in the flow of local streams and by diversions under prior ground water rights. This right does not guarantee the maintenance of any particular ground water level.
7. The pond(s) established by the storage of water under this right shall not exceed a total capacity of 20.0 acre-feet or a total surface area of 2 acre(s).
8. Rights 63-3165 and 63-11791 when combined shall not exceed a total annual maximum diversion volume of 40 af.
9. Use of water under this right will be regulated by a water master with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 63.
10. Upon specific notification by the Department, the right holder shall install a lockable device and/or a measuring device of a type acceptable to the Department in a manner that will provide the water master suitable control of the diversion.
11. As mitigation for this permit, the right holder shall retain ownership of shares of water in the Boise Valley Irrigation Ditch Company for the land being removed from irrigation under Transfer No. 73769. Use of water represented by those shares on lands other than lands owned by the water right holder in the NWSW of Section 24, T04N, R01E, is prohibited, or sale of any portion of the shares are cause for the Director of the Department of Water Resources to cancel this right.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 3rd day of June, 2010.

JOHN WESTRA, Western Regional Manager
