Re: Evaluation of Sufficiency of Information Submitted

Transfer proposes adding a fourth authorized point of diversion to a Snake River irrigation right. The new proposed point of diversion is located approximately 5.4 miles west and 0.3 miles north of the city of Burley (intersection of Main and Overland). Up to 77.9 cfs and 6725 AF will be diverted from any of four points of diversion to irrigate lands within the Southwest Irrigation District service area located approximately 9.4 mi. east - 25.1 mi. west and .6 – 20.5 mi. south of the center of Burley. The service area is generally located inside the ESPA and Water District 140 however the four points of diversion deliver Snake River water and will be regulated by water District 01 and will require watermaster comments.

Note, the new authorized point of diversion is associated with the Southwest Irrigation Districts wastewater permit 45-14183 and the recharge permit 01-10566 for the Western Cassia Pipeline.

- **Authority to File:**
The applicant is listed as current owner on IDWR records.
- **Water Right Validity:**
Water right 01-23A was decreed in the SRBA on May 5, 2010.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None if appropriate conditions and limits are implemented.
- **Local Public Interest:**
Application will be subject to public notice and protest.
- **Beneficial Use/Conservation of Water Resources:**
Proposed use is recognized as a beneficial use of water.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
