Travis,

We received your check for the \$200.00 and Nathan has receipted it and sent a copy of the receipt by email to Jessica. He is also working on the Expedited Drilling Permit and last I heard, was waiting to hear where to send the tag? I'm sure you are aware that although we are allowing the well to be drilled, it cannot be used until the transfer has been approved. Boise said that we can't process the transfer until the place of use issues/objections are resolved in the SRBA. Let me know if you have any questions.

Jeanie

Jeanie,

OK, I will have a check delivered tomorrow. Thanks for the heads up. Ironically I just tore up a check for \$300 that I wrote in May when the transfer was originally filed because it was \$200 too much and was returned!

We received the application and your check for \$100.00. You also requested an expedited drilling permit and the fee for that is \$200.00. Please submit another check for \$200.00 so we can move forward on that. Thanks, Jeanie Robertson
