Conditions of Approval:Remarks:Comments:

1. Igraves 2/21/2006 Comment/Analysis

Comment: Request to process form is n/a for backlogged Salmon River Moratorium applications. Richard Parker stated that the spring listed on the original application will not be developed because it does not produce sufficient water. He also stated that if he constructed a pond as part of the diversion system, it would be small enough not to exceed the 24 hour rule regarding fill and storage. Using current photography, Richard reduced the acres from 120 to 100 to more accurately reflect lands that could possibly be irrigated, including 30 feet along the sides of rice creek and rail creek located inside his property boundary. No other rights are used.

Subject: ADDITIONAL INFORMATION

Owner states Rice and Rail Creeks are seasonal flow with the possible exception of 200 ft flowing on property at point of diversion marked on map. Spring for domestic use is 125 ft above point of diversion for irrigation at a garden hose flow rate. IDWR review shows no overlapping water rights. 1 house hold from spring source and 10 beef cattle and 20 sheep. Processing delayed due to Salmon River Moratorium.
