Melvin Gifford
3082 Hwy 30 W
Po Box 409
New Plymouth, ID 83655

Dear Mr. Gifford:

Mrs. Collinsworth recently filed a transfer of some water rights to correctly identify the location of the points of diversion and place of use of the rights appurtenant to her land. In the process of working with her on that, it came to light that one water right is appurtenant to land you purchased and therefore I am writing to assist you in getting the water right registered in your name.

In addition to the name change, the legal descriptions of the point of diversion and place of use under this right are incorrect. It seems that while the two pieces of property owned by the Collinsworth's were described properly in a remark concerning the parcel number, the actual $\frac{1}{4}$ descriptions were reversed on the water right documents.

I have enclosed an application for transfer form that you can use to accomplish all the changes noted above. Please note on the checklist form that you also need to attach water right ownership documentation. The best thing you can provide for this purpose is a copy of your Warranty Deed.

After you date and sign the application and attach the Warranty Deed, please return the entire package along with the \$100 filing fee to my attention so that we can expedite the approval of the transfer as we did for Mrs. Collinsworth. If you have any questions, please call me.

Sincerely,

Steve Lester
Water Rights Supervisor
