the corporation's manager as to any measurement of water shall be final unless a stockholder provides an accurate measurement by means of a satisfactory device or in some other manner acceptable to such manager at the stockholder's own expense. Each such headgate or other delivery structure shall also be equipped so that the flow of water through it may be controlled and completely stopped, as well as locked.

### Section 3. Water Rights.

The water rights of the corporation, whether acquired by appropriation, transfer, purchase, contract or otherwise, presently consist of the following:

#### List of Water Rights

| <u>RIGHT NO.</u> | <u>SOURCE</u>                                          | <u>AMOUNT IN<br/>CFS or AF</u> | <u>PRIORITY</u> | <u>PURPOSE</u>                               |
|------------------|--------------------------------------------------------|--------------------------------|-----------------|----------------------------------------------|
| 13-00002         | Cub River                                              | 30.00CFS                       | 04/01/1882      | Irrigation                                   |
| 13-00003         | Cub River                                              | 25.00CFS                       | 04/01/1882      | Irrigation                                   |
