Re: Application for Transfer of Water Right, Nos. 65-22778
Transfer No. 74671

Dear Mr. Rumsey,

Steve Lester assigned the transfer referenced above to me for review and processing. He indicated that he met and spoke with you regarding information needed to continue to process the transfer. IDWR has not received the requested information as of today.

Enclosed are some notes Steve made regarding the application deficiencies and I will summarize again here.

- ✓ 1 – You must show on a map where you intend to remove the 1.5 acres from the 477- acre permissible place of use (PPU). I included a map of the PPU. Please use this map, mark the 1.5 acres and label it as the acres to be removed.
- ✓ 2 – Clarify in writing and on the map how and where the 1.5 acres is to be used on the place of use of right 65-8935. Is it intended to supplement the current irrigation use within the 5 acres irrigation allowed under 65-8935? I included a map of the 65-8935 place of use. Please use this map, mark the 1.5 acres and label it as the acres to be irrigated.
- 3 – The ownership of the transferred right must be clarified.

A - Do you intend for this to be a temporary transfer and the right to remain in your name as the owner of the right? If so, please provide a statement from the owner of 65-8935 granting permission for this temporary transfer onto the property, and the warranty deed verifying that she is the owner (and has the right to grant permission for the transfer).

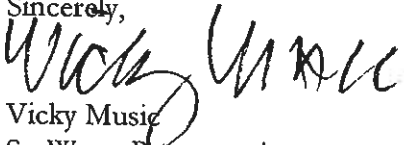

OR

B – Do you intend to transfer the ownership of this right permanently to the new place of use? In this case, the application must be in the name of the property owner of the new place of use

and you must provide a document (water right deed) conveying the water right to her and severing as an appurtenance from the 477- acres PPU.

The information requested is due by April 5, 2010. If you need additional time, you may request an extension in writing of up to 6 months. If IDWR does not receive either the information sought to evaluate your transfer, or the request for an extension, IDWR will void the application for transfer. Please call me at 208.334.2190 if you would like to discuss this process and the information needed to continue to process your application.

Sincerely,

Vicky Music
Sr. Water Resource Agent
