WHEREAS, section 42-222A, Idaho Code, provides that upon declaration of a drought emergency, the director of the Department of Water Resources ("Department") is authorized to allow temporary changes in the point of diversion, the place of use, and the purposes of use for valid existing water rights or temporary exchanges of water authorized under water rights when the director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

4. This temporary change approval may only be used to provide a replacement water supply to lands or other uses that normally have a full water supply, except for the drought conditions. This temporary change approval may not be used to provide water for new development or to allow expansion of the use of water under existing water rights.
