Governor

GARY SPACKMAN
Interim Director

May 24, 2010

Mr. Bill Wickel
1726 Elba Almo Road
Elba, ID 83342

Dear Mr. Wickel:

This letter is to inform you that you do not need an Idaho Department of Water Resources (IDWR) Stream Channel Alteration Permit for your spring development project located in Section 23 , Township 13S , Range 25E , B.M., in Cassia County, Idaho. The project entails work associated with a water right for stock water uses, which needs to be obtained prior to doing any work in the springs or spring channels. Once you obtain the proper water right the proposed activity will be exempt from stream channel alteration rules under the provisions of Title 42, Chapter 38, Idaho Code. Therefore we are returning your \$20 application fee.

This does not relieve you of the responsibility to obtain any other local, state, or federal permits that may be required, such as those required under the Clean Water Act or local ordinances required to meet federal flood insurance guidelines. A copy of this letter is being sent to the Corps of Engineers and the local county administrators.

If you have any questions or require any additional assistance, please do not hesitate to contact this office.

Sincerely,

Tom Bassista
Stream Protection Specialist
Resource Protection Bureau
