RE: Change of Ownership for Water Right No. 25-7598

Dear Water Right Holder:

You submitted a notice of change in water right ownership for the above referenced water right on October 26, 1999. There was some communication regarding the need to split the water right. It just came to my attention that the ownership change and split of the water right was not processed. The department has modified its records to reflect the change and has enclosed a computer-generated report for your records. Your portion of water right 25-7598 is numbered **25-14263**.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been deliberately abandoned or forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Your portion of the water right has a specified point of diversion, nature of use and place of use. If you plan on changing any of these, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. If you do not plan on changing any items on your water right, then no further action is required at this time.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Emalee Rushing
Office Services Supervisor
