Watermaster's Recommendation:

- c) ☐ I oppose approval of this application(s) for the following reasons:
d) ☐ Additional comment:

I agree this approval is probably not necessary. However since advertising has been completed it should be considered.

*Reviewing agent appropriately identifies the maximum irrigation within past 5 years at 117 acres. However the two rights are partly stacked, and the irrigation limit for the rights in combination is 32 acres. The system limit is 123 acres (91 acres 36-2297 + 32), not 141 acres. Forfeiture of 6 acres pursuant to the junior 7547F is indicated (123-117 = 6). Consequently the entire 15 acres of 7377F and 26 acres of 7547F may be considered for the extension of time if approved.
